

# Fifty mFRR EAM Recurring Meeting – Statnett, Svenska Kraftnät and Fifty, technical view

21.09.21

Visit [nordicbalancingmodel.net](http://nordicbalancingmodel.net)

# Sum up 21.09.2021 (1)

- **1-1-meetings TSO <-> BSP:**
  - Both Svk and Statnett have started local 1-1 meetings with BSPs.
  - Contact relevant TSO by mail, if you need 1-1-meeting:
    - Svk: [mfr@svk.se](mailto:mfr@svk.se)
    - Statnett: [bsp@statnett.no](mailto:bsp@statnett.no)
- **Discussions from 26.08.2021.**
  - Acknowledgements in the activation process will kept as in IG v 1.1.1
  - For BSP Test:  
Synthetic or real data in BSP <-> Resource Object relations:  
Not yet decided. May be synthetic for Svk and real for Statnett.

## Sum up 21.09.2021 (2)

- **ECP/EDX-Test System**

- **MESSAGE:**

- As a system vendor delivering software to BSPs and as a BSP developing own software you need ECP/EDX Test Environment to connect to BSP Test Environment hosted at your TSO.

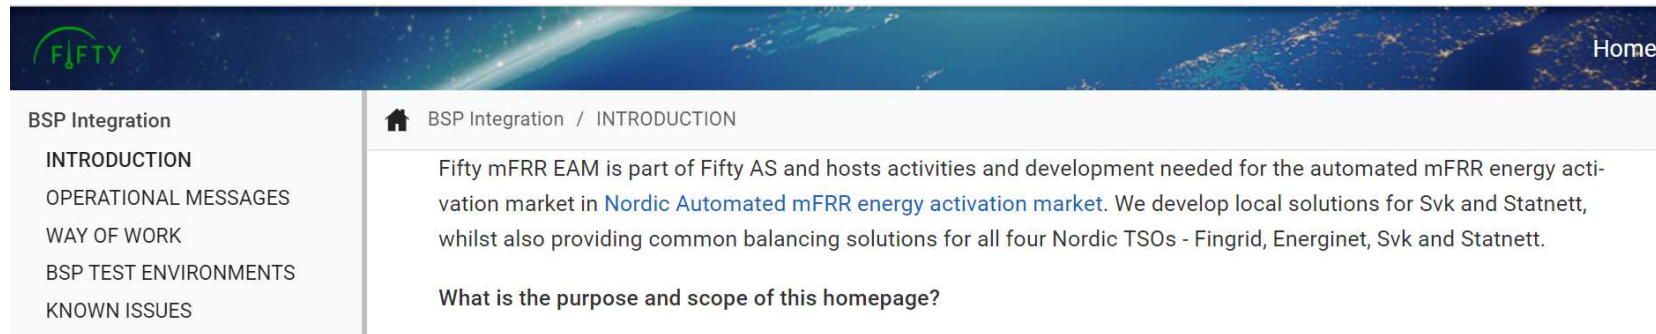

- Do you have access to a test environment on your side?

- **Status IG**

- V 1.1.1 has been published [NBM Homepage](#)
  - No drafted changes by 21.09.2021

# Fifty mFRR Homepage has been launched

- URL (changed since 26.08.2021):  
Take some time to visit and make yourself feel home at  
<https://integration.fifty.eu>

The screenshot shows the homepage of the Fifty mFRR EAM. The header features the Fifty logo on the left and a 'Home' link on the right. A navigation menu on the left lists: BSP Integration, INTRODUCTION, OPERATIONAL MESSAGES, WAY OF WORK, BSP TEST ENVIRONMENTS, and KNOWN ISSUES. The main content area is titled 'BSP Integration / INTRODUCTION' and contains the following text: 'Fifty mFRR EAM is part of Fifty AS and hosts activities and development needed for the automated mFRR energy activation market in [Nordic Automated mFRR energy activation market](#). We develop local solutions for Svk and Statnett, whilst also providing common balancing solutions for all four Nordic TSOs - Fingrid, Energinet, Svk and Statnett.' Below this text is the heading 'What is the purpose and scope of this homepage?'.

# For future meetings

## Important findings from 21.09.2021

We all need clarification, a better perception and common understanding:

For the different transitions and phases ahead of me:

- What is the state I am in at every point in time – in production and in test respectively?
- What goal does each of the transitions and phases aim at?
- What do I need to prepare?
- Transitions and phases:
  - BSP Test Period, planned Q4-2021 ->
  - Transition phase, Bid Submission and Activation, planned Q2-2022 ->
  - Advanced End to End Test, suggested Q3-2022 ->
  - If I am not already in, when I start doing electronic ordering in mFRR EAM, then...?
  - (Any other transitions/phases?)
