Postponement of Transition

- As previously communicated, we can conclude that a go-live of mFRR EAM ("automated operation") won't be possible as planned in November 2022, but will be postponed to after 22 May 2023.
 - Latest news from Svk:
 - [Försening av den nordiska energiaktiveringsmarknaden för mFRR | Svenska kraftnät \(svk.se\)](#)
 - [Övergångsperioden för ny budhantering av mFRR senareläggs | Svenska kraftnät \(svk.se\)](#)
 - Latest news from SN: [Innføringen av automatisert nordisk aktiveringsmarked for tertiærreserver utsettes til etter 22. mai 2023 | Statnett](#)
- Activities before go-live will also have an updated timeplan – including Transition
- The plan is to postpone Transition to the autumn 2022 (instead of April to July)

BSP Test demo

- Demo of BSP Test with Volue and Fifty
- More info on BSP Test and example files can be found here: [BSP Test environments](#)
- Is anything unclear?
