Agenda

- **Connectivity information**

Connectivity information

- PT Test environment for testing with BSPs
 - EDX Service - SERVICE-MFRREAM (will still work for Statnett (Norway))

We found that BSps, who were sending bids across national borders were having some problems using the same service (SERVICE-MFRREAM). In order to avoid this problem, 2 EDX services are used now -

- EDX Service - SERVICE-NO-MFRREAM for Statnett
 - EDX Service - SERVICE-SE-MFRREAM for Sweden
-
- Self-service Test Environment
 - EDX Service - SERVICE-MFRREAM-BSPTEST (Service only for BSP bid simulation testing)
 - Same changes are implemented for BSP test environment and 'Connectivity information' page in BSP integration documentation will be updated.
 - EDX Service - SERVICE-NO-MFRREAM-BSPTEST for Statnett
 - EDX Service - SERVICE-SE-MFRREAM-BSPTEST for Sweden

Examples, FAQ and more information on the webpage

Statnett

Webinars of interest

- For Norwegian BSPs and "systemlever

<https://www.statnett.no/om-statnett/moter-og-arrangementer/moter-og-arrangementer-2022/workshop-om-tekniske-problemstillinger-i-mfrr-eam/>

Workshop om tekniske problemstillinger i mFRR EAM

19. januar 2023 inviterer Statnett til en workshop om tekniske problemstillinger i mFRR EAM i samarbeid med referansegruppa til NBM programmet. Workshopen vil foregå hos Statnett. For dem som ikke har anledning til å delta fysisk, vil det bli arrangert en kort oppsummering via Teams et par uker senere.

- For stakeholders in balancing:
ENTSO-E Balancing platforms stakeholders' workshop
