Visit nordicbalancingmodel.net

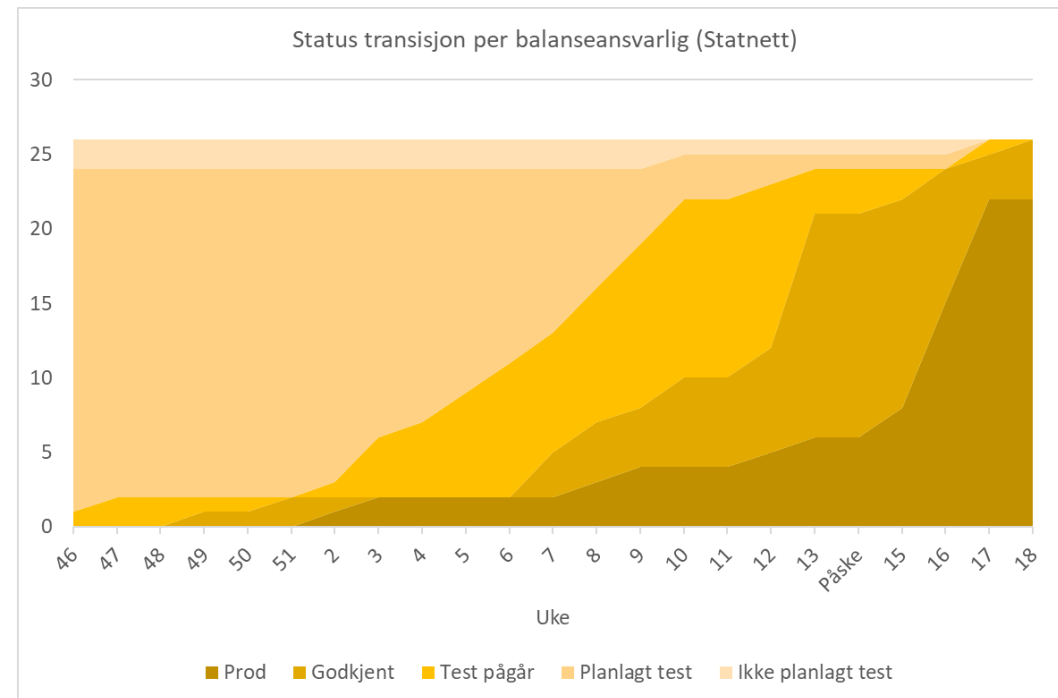

Agenda

- Status transition
- Cut-off mFRR EAM go-live

Status Transition

- Transition done for all BSPs at Svk
- 22 BSPs done, 4 left to transition at SN
 - Ongoing process to finalize transition as soon as possible
- An update of the implementation guide for transition will be done soon
- Retrospective with each TSO is coming up

Cut-off time on bids – mFRR EAM go-live

- When we have a problem with the bid reception and bids are not being processed properly and are queuing up.
- We propose a cut-off time of 10 minutes
 - No bids older than 10 minutes are processed
- To get back to normal process fast we propose that we stop processing the bids and therefore we will not send a negative acknowledgement for bids older than 10 minutes.
